

TRANSCRIPTION SERVICES

Unmatched performance in clinical documentation

Bolster your transcription results with technology-enabled quality checks and flexible workflow models that help you adapt to changing business expectations.

AQuity

High quality, secure, stable, and cost effective.

Aquity delivers measurable healthcare business improvements through a deep understanding of the clinical documentation business process, industry leading technology, and unparalleled service.

At Aquity, we recognize clinical documentation is the lifeblood of your organization's ongoing patient care and financial performance. To protect that investment, we operate as a seamless extension of your business, focused on quality and turnaround times. Our quality support and customer service outshine our competitors for effectiveness and transparency. Led by a dedicated Customer Relationship Managers and automated reporting, our clients benefit from unparalleled process visibility, workflow control, and cost management.

Interested in what happens with the reports once they been transcribed? Aquity's clients can easily track transcription influenced Key Performance Indicators (KPIs) that support the health of their healthcare business through our unique reporting and workflow analytics.

Our award-winning transcription services are supported by our equally renowned Fluency For Transcription™ (FFT) dictation and transcription technology. Available via onsite servers or hosted on the cloud with security measures that far surpass HIPAA requirements, Aquity delivers quality.

Our key differentiators include:

- Top ranked by KLAS and Black Book
- Exceptional process visibility
- Superior customer service
- Award-winning flexible technology
